

**Products >> Pins Strips and Faller Bars**

**PLASTIC PIN STRIP FOR GILL BOX**

We have complete range of Plastic Pin Strips for all types of Faller Bars.

- Pinnings from 2 ppcm, to 9 ppcm represented in standard colour code for easy identification.
- Available for most models of Gill box like SCHLUMBERGER, COGNETEX, ST. ANDREA, OKK etc.

**Different System Available**

Press Fit System

- Fixing of strips in the faller bar by mechanical pressure only
- No need of glue
- Very little time and inexperienced workforce required to change the strips
- Special press fit apparatus available

Pre Glued System

- Required amount of glue is already attached.
- Specially selected one component glue of high adhesive strength used
- No possibility of excess glue between the pins.
- Special heating device for fitting and removal of strips from faller

2 Component Adhesive System

- Plastic strips supplied seperately with 2 component glue.
- Can be used on varying depth and slot width of Faller Bar.
- Strong bonding strength of 2 component glue.
- Special heating device for removal of strips from faller

**Faller bar**

We produce Faller Bars for most high speed Gill Boxes(both Chain Driven, Screw Driven and Rotary Gill)
